# NCR 7454 Convenience Store Point-of-Service System

The advanced user interface, scalability, small footprint and multimedia capability of the NCR 7454 allow you to put your POS power where you need it most.

power supply are fully integrated, eliminating the need for additional wiring and cabinetry.

## Cost-Effective Multimedia

The NCR 7454 is a POS system with kiosk capabilities. When it is not in use by store personnel, put multimedia to work in the form of customer promotions or employee training. The 7454 offers full-screen, full-motion video, with optional audio. You choose the functionality you need – by store or by system.

The NCR 7454 is the POS solution designed with our customers in mind. Its versatility – in form and function – meets the demands of the dynamic convenience store industry.

## High Functionality and Small Footprint

NCR designed the NCR 7454 by studying the way your employees work. The user interface is intuitive, alleviating the impact of high turnover and training costs. The touch screen is accurate and designed to be readable from any angle, providing maximum functionality in a minimum size. As a result, it helps your employees spend more time with your customers.

No room on the counter? Mount it on the wall. The NCR 7454 takes up little space in either location, and handles the bumps and spills that come with the territory. The display, processor and

## Custom Configuration

The NCR 7454 can be configured to put POS power where you need it most. Your investment is protected for years to come. The NCR 7454 runs Windows NT and Windows 95, and supports standard convenience store applications.

It fits in your budget, too. The superior ergonomic design, flexibility and reliability of the NCR 7454 add up to a low total cost of ownership. And, like all NCR products and solutions, the NCR 7454 is supported by our highly responsive global services team. NCR is your partner for on-site support and much more. We offer complete solutions to your business challenges, incorporating business consulting, project management, customization, installation and maintenance services.
